

ABRASIVE WHEELS - BASICS

Introduction

Abrasive Wheels are used in many areas and can be highly dangerous if used by untrained personnel. The Provision and Use of Work Equipment Regulations 1998 requires that anyone involved in mounting, dressing or setting abrasive wheels is trained and certificated.

Learning Outcomes

To provide delegates with the knowledge needed to safely mount, dress, set and use abrasive wheels in compliance with current legislation.

With an abrasive wheel the individual will be able to have an understanding of:

- The requirements of the Provision and Use of Work Equipment Regulations 1998 with respect to Abrasive Wheels Regulations
- Hazards arising from the use of abrasive wheels and precautions which should be observed
- Storing, handling and transporting abrasive wheels
- Inspecting and testing abrasive wheels
- The functions of all components used with abrasive wheels, including flanges, washers, bushes and nuts in the mounting and including knowledge of the correct and incorrect methods of assembling all components and correct balancing of abrasive wheels
- Dressing an abrasive wheel
- Adjusting an abrasive wheel

This course can be tailored to meet the specific needs of the customer.
